

### REMARKS

This Amendment After Allowance includes amendments to the claims made in order to comply with the examiner's amendment in the Notice of Allowability dated March 7, 2005. Specifically, on March 2, 2005, the applicant's representative, Aaron M. Peters (Reg. No. 48,801) authorized an examiner's amendment to change all instances of "the device" to "the process plant device". All but three instances of "the device" were amended in the examiner's amendment, and the above amendment addresses the remaining three instances where "the device" should refer to "the process plant device". It is believed that no new matter has been added by way of this amendment. This amendment is merely a matter of form to comply with the previously agreed upon amendment and the applicant respectfully submits that this amendment is in full compliance with Rule 312.

It is understood that no fees are necessary in connection with the present Amendment. However, the Commissioner is authorized to charge any fee deficiency required by this paper, or credit any overpayment to, Deposit Account No. 13-2855.

Should the examiner have any questions, the examiner is respectfully invited to telephone the undersigned.

Respectfully submitted,
